\* Less than 0.1%.

<sup>1</sup> Amount is stated in USD unless otherwise noted.

<sup>2</sup> Security purchased or received in a transaction exempt from registration under the Securities Act of 1933, as amended (the "1933 Act"). The security may be resold pursuant to an exemption from registration under the 1933 Act, typically to qualified institutional buyers. The aggregate value of these securities at February 28, 2026 was \$3,840,338, which represented 1.6% of the Trust's Total Investments.

<sup>3</sup> Variable rate security. Security may be issued at a fixed coupon rate, which converts to a variable rate at a specified date. Rate shown is the rate in effect as of February 28, 2026.

<sup>4</sup> Security is perpetual in nature and has no stated maturity date.

<sup>5</sup> Issuer filed for bankruptcy and/or is in default of interest payments.

<sup>6</sup> Rate shown is the current yield as of February 28, 2026.

## Pro-Mix Extended Term

ADR - American Depositary Receipt

MXN - Mexican Peso

REIT - Real Estate Investment Trust

REMICs - Real Estate Mortgage Investment Conduits

UMBS - Uniform Mortgage-Backed Securities

\* *Less than 0.1%.*

<sup>1</sup> *Amount is stated in USD unless otherwise noted.*

<sup>2</sup> *Security purchased or received in a transaction exempt from registration under the Securities Act of 1933, as amended (the "1933 Act"). The security may be resold pursuant to an exemption from registration under the 1933 Act, typically to qualified institutional buyers. The aggregate value of these securities at February 28, 2026 was \$21,581,941, which represented 11.5% of the Trust's Total Investments.*

<sup>3</sup> *Variable rate security. Security may be issued at a fixed coupon rate, which converts to a variable rate at a specified date. Rate shown is the rate in effect as of February 28, 2026.*

<sup>4</sup> *Security is perpetual in nature and has no stated maturity date.*

<sup>5</sup> *Issuer filed for bankruptcy and/or is in default of interest payments.*

<sup>6</sup> *Floating rate security. Rate shown is the rate in effect as of February 28, 2026.*

<sup>7</sup> *Variable or floating rate security, the interest rate of which adjusts periodically based on changes in current interest rates and prepayments on the underlying pool of assets. Rate shown is the rate in effect as of February 28, 2026.*

<sup>8</sup> *Represents a step-up bond that pays initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current coupon as of February 28, 2026.*

<sup>9</sup> *Rate shown is the current yield as of February 28, 2026.*

## Pro-Mix Moderate Term

ADR - American Depositary Receipt

MXN - Mexican Peso

REIT - Real Estate Investment Trust

REMICs - Real Estate Mortgage Investment Conduits

UMBS - Uniform Mortgage-Backed Securities

\* *Less than 0.1%.*

<sup>1</sup> *Amount is stated in USD unless otherwise noted.*

<sup>2</sup> *Security purchased or received in a transaction exempt from registration under the Securities Act of 1933, as amended (the "1933 Act"). The security may be resold pursuant to an exemption from registration under the 1933 Act, typically to qualified institutional buyers. The aggregate value of these securities at February 28, 2026 was \$27,690,688, which represented 21.1% of the Trust's Total Investments.*

<sup>3</sup> *Variable rate security. Security may be issued at a fixed coupon rate, which converts to a variable rate at a specified date. Rate shown is the rate in effect as of February 28, 2026.*

<sup>4</sup> *Security is perpetual in nature and has no stated maturity date.*

<sup>5</sup> *Issuer filed for bankruptcy and/or is in default of interest payments.*

<sup>6</sup> *Floating rate security. Rate shown is the rate in effect as of February 28, 2026.*

<sup>7</sup> *Variable or floating rate security, the interest rate of which adjusts periodically based on changes in current interest rates and prepayments on the underlying pool of assets. Rate shown is the rate in effect as of February 28, 2026.*

<sup>8</sup> *Represents a step-up bond that pays initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current coupon as of February 28, 2026.*

<sup>9</sup> *Rate shown is the current yield as of February 28, 2026.*

*The Global Industry Classification Standard (GICS) was developed by and is the exclusive property and a service mark of MSCI Inc. (MSCI) and Standard & Poor's, a division of S&P Global Inc. (S&P), and is licensed for use by Manning & Napier when referencing GICS sectors. Neither MSCI, S&P, nor any third party involved in making or compiling the GICS or any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification, nor shall any such party have any liability therefrom.*

## Pro-Mix Conservative Term

ADR - American Depositary Receipt

MXN - Mexican Peso

REIT - Real Estate Investment Trust

REMICS - Real Estate Mortgage Investment Conduits

UMBS - Uniform Mortgage-Backed Securities

\* Less than 0.1%.

<sup>1</sup> Amount is stated in USD unless otherwise noted.

<sup>2</sup> Security purchased or received in a transaction exempt from registration under the Securities Act of 1933, as amended (the "1933 Act"). The security may be resold pursuant to an exemption from registration under the 1933 Act, typically to qualified institutional buyers. The aggregate value of these securities at February 28, 2026 was \$10,828,357, which represented 22.9% of the Trust's Total Investments.

<sup>3</sup> Variable rate security. Security may be issued at a fixed coupon rate, which converts to a variable rate at a specified date. Rate shown is the rate in effect as of February 28, 2026.

<sup>4</sup> Issuer filed for bankruptcy and/or is in default of interest payments.

<sup>5</sup> Floating rate security. Rate shown is the rate in effect as of February 28, 2026.

<sup>6</sup> Variable or floating rate security, the interest rate of which adjusts periodically based on changes in current interest rates and prepayments on the underlying pool of assets. Rate shown is the rate in effect as of February 28, 2026.

<sup>7</sup> Represents a step-up bond that pays initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current coupon as of February 28, 2026.

<sup>8</sup> Rate shown is the current yield as of February 28, 2026.

## A. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Exeter Trust Company (the “Trustee”) established the Manning & Napier Pro-Mix® Maximum Term Collective Investment Trust, Manning & Napier Pro-Mix® Extended Term Collective Investment Trust, Manning & Napier Pro-Mix® Moderate Term Collective Investment Trust and Manning & Napier Pro-Mix® Conservative Term Collective Investment Trust (collectively, the “Trusts”) on September 15, 1998. The Trusts are governed by the Amended and Restated Declaration of Trust of Exeter Trust Company Collective Investment Funds for Employee Benefit Trusts dated January 1, 2012.

The investment objective of the Maximum Term Trust is to achieve the high level of long-term capital growth typically associated with the stock market. The investment objectives ranked by priority for the Extended Term Trust are as follows: (i) the primary objective is long-term growth of capital; (ii) the secondary objective is to manage against capital risk by reducing year-to-year volatility; (iii) the third objective is to exceed the rate of inflation over the long-term recognizing that, in extremely high periods of inflation, managing to beat inflation would require too great a deviation from the first two objectives of the Trust. The Moderate Term Trust places dual emphasis on two objectives, which must be balanced against each other due to their conflicting nature: (i) to manage against capital risk by reducing year-to-year volatility; (ii) to seek capital growth. The investment objectives for the Conservative Term Trust are as follows: (i) the primary objective is to manage against capital risk by reducing year-to-year volatility; (ii) the secondary objectives are to provide income and long-term growth of capital.

The Trusts are authorized to issue two classes of units (Class S and Class U). Each class of units are substantially the same, except the class specific Trustee fee borne by the specific class of units to which they relate.

The Trusts are group trusts within the meaning of Internal Revenue Service Ruling 81-100, as amended. The Trusts are available only to certain qualified and governmental retirement plans and collective investment funds and are not offered to the general public. The Trusts are required to comply with the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended, and the Trustee is subject to the supervision and regulation by the Office of the Comptroller of the Currency including Regulation 9 of the Rules and Regulations of the Comptroller of the Currency.

The following is a summary of significant accounting policies followed by the Trusts. The Trusts are an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standards Codification Topic 946 - Investment Companies, which is part of accounting principles generally accepted in the United States of America (“GAAP”).

### **Security Valuation**

Portfolio securities, including domestic equities, foreign equities, exchange-traded funds, warrants and options, listed on an exchange other than the NASDAQ Stock Market are valued at the latest quoted sales price of the exchange on which the security is primarily traded. Securities not traded on valuation date or securities not listed on an exchange are valued at the latest quoted bid price provided by the Trust’s pricing service. Securities listed on the NASDAQ Stock Market are valued in accordance with the NASDAQ Official Closing Price.

Debt securities, including government bonds, foreign bonds, asset-backed securities, structured notes, supranational obligations, sovereign bonds, corporate bonds and mortgage-backed securities will normally be valued on the basis of evaluated bid prices provided directly by an independent pricing service. The pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Certain investments in securities held by the Trusts may be valued on a basis of a price provided directly by a principal market maker. These prices may differ from the value that would have been used had a broader market for securities existed.

## Notes to Financial Statements (continued)

### A. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Security Valuation (continued)

Short-term investments that mature in sixty days or less may be valued at amortized cost, which approximates fair value. Investments in open-end investment companies (i.e., mutual funds) are valued at their net asset value per share on valuation date.

Volume and level of activity in established markets for an asset or liability are evaluated to determine whether recent transactions and quoted prices are determinative of fair value. Where there have been significant decreases in volume and level of activity, further analysis and adjustment may be necessary to estimate fair value. The Trusts measure fair value in these instances by the use of inputs and valuation techniques which may be based upon current market prices of securities that are comparable in coupon, rating, maturity and industry and/or expectation of future cash flows. As a result of trading in relatively thin markets and/or markets that experience significant volatility, the prices used by the Trusts to value these securities may differ from the value that would be realized if these securities were sold, and the differences could be material.

Securities for which representative valuations or prices are not available from the Trusts' pricing service may be valued at fair value. Due to the inherent uncertainty of valuations of such securities, the fair value may differ significantly from the values that would have been used had a ready market for such securities existed. If trading or events occurring after the close of the principal market in which securities are traded are expected to materially affect the value of those securities, then they may be valued at their fair value, taking this trading or these events into account. Fair value is determined in good faith by the Trustee by reference to such standards as the Trustee, in good faith, deems applicable in the circumstances. Certain securities trading outside the U.S. whose values were adjusted following the close of local trading use a factor from a third party vendor to the extent available. The third party vendor uses statistical analyses and quantitative models, which consider among other things subsequent movement and changes in the prices of indices, securities and exchange rates in other markets, to determine the factors which are used to adjust local market prices. The value of securities used for net asset value calculation under these procedures may differ from published prices for the same securities. It is the Trusts' policy to classify each foreign equity security where a factor from a third party vendor is provided as a Level 2 security.

Various inputs are used in determining the value of the Trusts' assets or liabilities carried at fair value. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical assets and liabilities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Level 3 includes significant unobservable inputs (including the Trusts' own assumptions in determining the fair value of investments). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the valuation levels used for major security types as of February 28, 2026 in valuing the Trusts' assets carried at fair value:

There were no Level 3 securities held by any of the Trusts as of February 28, 2025 or February 28, 2026.

#### Frequency of Valuation

The net asset value, or price per unit, is determined each business day (“valuation date”).

#### Security Transactions, Investment Income and Expenses

Security transactions are accounted for on trade date. For financial reporting purposes, the Trusts use the specific identification accounting method for determining realized gain or loss on the sale of investments. Dividend income is recorded on the ex-dividend date, except that if the ex-dividend date has passed, certain dividends from foreign securities are recorded as soon as the Trusts are informed of the ex-dividend date. Non-cash dividends, if any, are recorded at the fair value of the securities received. Interest income, including amortization of premium and accretion of discounts using the effective interest method, is earned from settlement date and accrued daily.

Expenses are recorded on an accrual basis.

#### Foreign Currency Translation

The books and records of the Trusts are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities and income and expenses are translated on the respective dates of such transactions. The Trusts do not isolate realized and unrealized gains and losses attributable to changes in the exchange rates from gains and losses that arise from changes in the fair value of investments. Such fluctuations are included with net realized and unrealized gain or loss on investments. Net realized foreign currency gains and losses represent foreign currency gains and losses between trade date and settlement date on securities transactions, gains and losses on disposition of foreign currencies and the difference between the amount of income and foreign withholding taxes recorded on the books of the Trusts and the amounts actually received or paid.

#### Asset-Backed Securities

Each Trust may invest in asset-backed securities. Asset-backed securities are generally issued as pass-through certificates or as debt instruments. Asset-backed securities issued as pass-through certificates represent undivided fractional ownership interests in an underlying pool of assets. Asset-backed securities issued as debt instruments, which are also known as

# Notes to Financial Statements (continued)

---

## A. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Asset-Backed Securities** (continued)

collateralized obligations, are typically issued as the debt of a special purpose entity organized solely for the purpose of owning such assets and issuing such debt. Asset-backed securities are often backed by a pool of assets representing the obligations of a number of different parties. The yield characteristics of certain asset-backed securities may differ from traditional debt securities. One such major difference is that all or a principal part of the obligations may be prepaid at any time because the underlying assets (i.e. loans) may be prepaid at any time. As a result, a decrease in interest rates in the market may result in increases in the level of prepayments as borrowers, particularly mortgagors, refinance and repay their loans. An increased prepayment rate with respect to an asset-backed security will have the effect of shortening the maturity of the security. In addition, the Trusts may subsequently have to reinvest the proceeds at lower interest rates. If the Trusts has purchased such an asset-backed security at a premium, a faster than anticipated prepayment rate could result in a loss of principal to the extent of the premium paid.

### **Mortgage-Backed Securities**

Each Trust may invest in mortgage-backed securities (“MBS” or pass-through certificates) that represent an interest in a pool of specific underlying mortgage loans and entitle the Trusts to the periodic payments of principal and interest from those mortgages. MBS may be issued by government agencies or corporations, or private issuers. Most MBS issued by government agencies are guaranteed; however, the degree of protection differs based on the issuer. For MBS there are a number of important differences among the agencies and instrumentalities of the U.S. Government that issue mortgage-related securities and among the securities that they issue. For example, mortgage-related securities guaranteed by Ginnie Mae are guaranteed as to the timely payment of principal and interest by Ginnie Mae and such guarantee is backed by the full faith and credit of the United States. However, mortgage-related securities issued by Freddie Mac and Fannie Mae, including Freddie Mac and Fannie Mae guaranteed mortgage pass-through certificates, which are solely the obligations of Freddie Mac and Fannie Mae, are not backed by or entitled to the full faith and credit of the United States, but are supported by the right of the issuer to borrow from the U.S. Treasury. Non-agency mortgage-backed securities are securities issued by non-governmental issuers and have no direct or indirect government guarantees of payment and are subject to various risks. Non-agency mortgage loans are obligations of the borrowers thereunder only and are not typically insured or guaranteed by any other person or entity. The ability of a borrower to repay a loan is dependent upon the income or assets of the borrower. A number of factors, including a general economic downturn, acts of God, terrorism, social unrest and civil disturbances, may impair a borrower’s ability to repay its loans.

### **Inflation-Indexed Bonds**

Each Trust may invest in inflation-indexed bonds. Inflation-indexed bonds are fixed income securities whose principal value is periodically adjusted according to the rate of inflation. If the index measuring inflation rises or falls, the principal value of inflation-indexed bonds will be adjusted upward or downward, and consequently the interest payable on these securities (calculated with respect to a larger or smaller principal amount) will be increased or reduced, respectively. Any upward or downward adjustment in the principal amount of an inflation-indexed bond will be included as interest income in the Statements of Operations, even though investors do not receive their principal until maturity. Repayment of the original bond principal upon maturity (as adjusted for inflation) is guaranteed in the case of U.S. Treasury inflation-indexed bonds. For bonds that do not provide a similar guarantee, the adjusted principal value of the bond repaid at maturity may be less than the original principal.

### **Securities Purchased on a When-Issued Basis or Forward Commitment**

Each Trust may purchase securities on a when-issued basis or forward commitment. These transactions involve a commitment by the Trusts to purchase securities for a predetermined price with payment and delivery taking place beyond the customary settlement period. When such purchases are outstanding, the Trusts will designate liquid assets in an amount sufficient to meet the purchase price. When purchasing a security on a delayed delivery basis, the Trusts assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations, and take such fluctuations into account when determining their net asset value. The Trusts may sell the when-issued securities before they are delivered, which may result in a capital gain or loss.

In connection with their ability to purchase or sell securities on a forward commitment basis, the Trusts may enter into forward roll transactions principally using To Be Announced (TBA) securities. Forward roll transactions require the sale

# Notes to Financial Statements (continued)

---

## A. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

### Securities Purchased on a When-Issued Basis or Forward Commitment (continued)

of securities for delivery in the current month, and a simultaneous agreement to repurchase substantially similar (same type, coupon and maturity) securities on a specified future date. Risks of entering into forward roll transactions include the potential inability of the counterparty to meet the terms of the agreement; the potential of the Trusts to receive inferior securities at redelivery as compared to the securities sold to the counterparty; counterparty credit risk; and the potential pay down speed variance between the mortgage-backed pools. During the roll period, the Trusts forgo principal and interest paid on the securities. The Trusts account for such dollar rolls as purchases and sales. No such investments were held by any of the Trusts on February 28, 2026.

### Interest Only Securities

The Trusts may invest in stripped mortgage-backed securities issued by the U.S. government, its agencies and instrumentalities. Stripped mortgage-backed securities are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. In certain cases, one class will receive all of the interest (the interest-only or "IO" class), while the other class will receive all of the principal (the principal-only or "PO" class). The yield to maturity on IOs is sensitive to the rate of principal repayments (including prepayments) on the related underlying mortgage assets, and principal payments may have a material effect on yield to maturity. If the underlying mortgage assets experience greater than anticipated prepayments of principal, a Trust may not fully recoup its initial investment in IOs. The Trusts also may invest in stripped mortgage-backed securities that are privately issued. These securities will be considered illiquid for purposes of each Fund's limit on illiquid securities. No such investments were held by any of the Trusts on February 28, 2026.

### Restricted Securities

Restricted securities are purchased in private placement transactions, are not registered under the Securities Act of 1933, as amended, and may have contractual restrictions on resale. Information regarding restricted securities is included at the end of each Trust's Investment Portfolio.

### Income Taxes

It is the policy of the Trusts to comply with the requirements of the Internal Revenue Code which are applicable to pooled employee benefit trusts. Accordingly, the Trusts are exempt from federal income taxes, and no income tax provision is required in the financial statements.

Management evaluates its tax positions to determine if the tax positions taken meet the minimum recognition threshold in connection with accounting for uncertainties in income tax positions taken or expected to be taken for the purposes of measuring and recognizing tax liabilities in the financial statements. Recognition of tax benefits of an uncertain tax position is required only when the position is "more likely than not" to be sustained assuming examination by taxing authorities. At February 28, 2026, the Trusts have recorded no liability for net unrecognized tax benefits relating to uncertain income tax positions taken or expected to be taken in future tax returns. The Trusts do not file income tax returns in the U.S. federal jurisdiction, any states or foreign jurisdiction.

### Foreign Taxes

Based on the Trusts' understanding of the tax rules and rates related to income, gains and currency purchase/repatriation transactions for foreign jurisdictions in which it invests, the Trusts will provide for foreign taxes, and where appropriate, deferred foreign tax. The Trusts record an estimated deferred tax liability for securities held at the end of the reporting period, assuming those positions were disposed of at the end of the period. This amount is reported in Accrued foreign capital gains tax in the accompanying Statement of Assets and Liabilities.

### Units of Participation

The beneficial interest of each participant in the net assets of the Trusts is represented by units. There are no distributions of net investment gain or investment income to the Trusts' participants. Such amounts are added to the net assets of the Trusts. The issue and redemption of units are recorded upon receipt of purchase and redemption authorizations that are in good order, and are based on the next determined net asset value per unit. In certain circumstances, units may be purchased or

## Notes to Financial Statements (continued)

### A. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Units of Participation (continued)

redeemed through the delivery to the Trusts or receipt by the unit holders, respectively, of securities, the fair value of which is used to determine the number of units issued or redeemed.

In calculating the net asset value per unit of each class, investment income, realized and unrealized gains and losses and expenses, other than class specific expenses, are allocated daily to each class of units based upon the proportion of net assets of each class at the beginning of each day. Each class of units bears its pro-rata portion of expenses attributable to its Trust, except that each class separately bears expenses related specifically to that class.

#### Other

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

### B. PURCHASES AND SALES OF SECURITIES

For the year ended February 28, 2026, purchases and sales of securities were as follows:

<i>Trust</i>	<i>Purchases</i>		
	<i>Equities*</i>	<i>Fixed Income</i>	<i>Short-Term</i>
Pro-Mix <sup>®</sup> Maximum Term	\$ 266,739,022	\$ 60,907,698	\$ 336,579,598
Pro-Mix <sup>®</sup> Extended Term	147,087,243	81,053,457	225,811,999
Pro-Mix <sup>®</sup> Moderate Term	116,275,231	53,774,745	222,052,777
Pro-Mix <sup>®</sup> Conservative Term	33,170,548	27,220,697	80,984,885

<i>Trust</i>	<i>Sales</i>					
	<i>Equities*</i>		<i>Fixed Income</i>		<i>Short-Term</i>	
	<i>Proceeds</i>	<i>Realized Gain</i>	<i>Proceeds</i>	<i>Realized Gain (Loss)</i>	<i>Proceeds</i>	<i>Realized Gain</i>
Pro-Mix <sup>®</sup> Maximum Term	\$ 384,700,319	\$ 59,801,198	\$ 78,440,868	\$ 609,974	\$ 329,902,326	\$ —
Pro-Mix <sup>®</sup> Extended Term	206,299,960	25,329,905	110,497,429	(29,819)	221,828,602	—
Pro-Mix <sup>®</sup> Moderate Term	163,254,773	14,048,086	104,188,579	107,181	221,611,502	—
Pro-Mix <sup>®</sup> Conservative Term	41,131,318	1,989,793	53,184,242	263,548	81,640,011	—

\* Equities include common and preferred stocks.

### C. EXPENSES AND TRANSACTIONS WITH AFFILIATES

The Trustee has voluntarily agreed to bear all operating expenses of the Trusts, other than the audit and Trustee fees.

For the services it provides to the Trusts, the Trustee receives a fee, computed daily and payable monthly. The annual rates, based on average daily net assets, are as follows:

<i>Trust</i>	<i>Aggregate Trustee fees - Class S</i>	<i>Aggregate Trustee fees - Class U</i>
	Pro-Mix <sup>®</sup> Maximum Term	0.90%
Pro-Mix <sup>®</sup> Extended Term	0.90%	0.49%
Pro-Mix <sup>®</sup> Moderate Term	0.90%	0.49%
Pro-Mix <sup>®</sup> Conservative Term	0.85%	0.49%

## Notes to Financial Statements (continued)

### C. EXPENSES AND TRANSACTIONS WITH AFFILIATES (continued)

Of the total Trustee fee, the following percentage is paid by the Trustee to Manning & Napier Advisors, LLC (the “Advisor”), an affiliate of the Trustee, for advisory services performed on behalf of the Trusts. This amount is presented in the Statements of Operations as Trustee fees - advisory.

<u>Trust</u>	<u>Trustee fees - advisory - Class S</u>	<u>Trustee fees - advisory - Class U</u>
Pro-Mix <sup>®</sup> Maximum Term	0.85%	0.44%
Pro-Mix <sup>®</sup> Extended Term	0.85%	0.44%
Pro-Mix <sup>®</sup> Moderate Term	0.85%	0.44%
Pro-Mix <sup>®</sup> Conservative Term	0.80%	0.44%

The remaining 0.05% is retained by the Trustee for the services it provides to the Trusts and is presented in the Statements of Operations as Trustee fees.

The Trustee has voluntarily agreed to limit expenses of the Trusts in order to maintain total expenses of the Trusts at no more than the following percentages of average daily net assets each year:

<u>Trust</u>	<u>Expense Limit - Class S</u>	<u>Expense Limit - Class U</u>
Pro-Mix <sup>®</sup> Maximum Term	0.90%	0.49%
Pro-Mix <sup>®</sup> Extended Term	0.90%	0.49%
Pro-Mix <sup>®</sup> Moderate Term	0.90%	0.49%
Pro-Mix <sup>®</sup> Conservative Term	0.85%	0.49%

The Advisor may change or eliminate all or part of its voluntary waiver at any time.

### D. OWNERSHIP OF UNITS

The ownership of each Trust’s units was concentrated among relatively few employee benefit plans. At February 28, 2026, this concentration was as follows:

	<u>Pro-Mix<sup>®</sup> Maximum Term</u>	<u>Pro-Mix<sup>®</sup> Extended Term</u>	<u>Pro-Mix<sup>®</sup> Moderate Term</u>	<u>Pro-Mix<sup>®</sup> Conservative Term</u>
Number of unaffiliated unit holders each owning greater than 10%	1	—	1	2
Total ownership by unaffiliated unit holders above	16.8%	—	12.4%	40.6%
Ownership by other collective investment trusts advised by the Advisor	46.2%	44.7%	59.0%	44.4%
Number of affiliated unit holders	1*	1*	1*	1*
Total ownership by affiliated unit holders above	10.8%	11.1%	1.2%	2.0%

\*Manning & Napier 401(k) Plan – Affiliated.

Investment activities of these unit holders may have a material effect on the Trusts.

### E. FINANCIAL INSTRUMENTS

The Trusts may trade in instruments including written and purchased options, forward foreign currency exchange contracts and futures contracts and other derivatives in the normal course of investing activities to assist in managing exposure to various market risks. Investments in these instruments may subject the Trusts to various elements of risk, which may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. These risks include: the risk that changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or

## ***Notes to Financial Statements (continued)***

---

### **E. FINANCIAL INSTRUMENTS (continued)**

index; counterparty credit risk related to over the counter derivatives counterparties' failure to perform under contract terms; liquidity risk related to the lack of a liquid market for these contracts allowing the Trusts to close out their position(s) and documentation risk relating to disagreement over contract terms.

### **F. FOREIGN SECURITIES**

Investing in securities of foreign companies and foreign governments involves special risks and considerations not typically associated with investing in securities of domestic companies and the U.S. Government. These risks include revaluation of currencies and future adverse political and economic developments. Moreover, securities of foreign companies and foreign governments and their markets may be less liquid and their prices more volatile than those of comparable domestic companies and the U.S. Government.

### **G. MARKET EVENT**

Significant disruptions and volatility in the global financial markets and economies, like the current conditions caused by the Russian invasion of Ukraine, the conflict between Hamas and Israel in the Middle East and the COVID-19 pandemic, could negatively impact the investment performance of the Trusts. The global market and economic climate may become increasingly uncertain due to numerous factors beyond our control, including but not limited to, impacts on business operations in the U.S. related to the COVID-19 pandemic, such as supply chain disruptions and inflation, concerns related to unpredictable global market and economic factors, uncertainty in U.S. federal fiscal, tax, trade or regulatory policy and the fiscal, tax, trade or regulatory policy of foreign governments, rising interest rates, inflation or deflation, the availability of credit, performance of financial markets, armed conflicts, terrorism, natural or biological catastrophes, public health emergencies, or political uncertainty.

### **H. SUBSEQUENT EVENTS**

In preparing these financial statements, management of the Trust has evaluated events and transactions for potential recognition or disclosure through May 6, 2026, the date the financial statements were available to be issued, and determined that there were no subsequent events that require recognition or disclosure.

# ***Report of Independent Auditors***

## ***To the Board of Directors of Exeter Trust Company:***

### ***Opinions***

We have audited the accompanying financial statements of Manning & Napier Pro-Mix Maximum Term Collective Investment Trust, Manning & Napier Pro-Mix Extended Term Collective Investment Trust, Manning & Napier Pro-Mix Moderate Term Collective Investment Trust & Manning & Napier Pro-Mix Conservative Term Collective Investment Trust (each a trust of Exeter Trust Company Collective Investment Funds for Employee Benefit Trusts, hereafter referred to as the "Trusts"), which comprise the statements of assets and liabilities, including the investment portfolios, as of February 28, 2026, and the related statements of operations, of changes in net assets, including the related notes, and the financial highlights for the year then ended (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Trusts as of February 28, 2026, and the results of each of their operations, the changes in each of their net assets and each of their financial highlights for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinions***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Trusts and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trusts' ability to continue as a going concern for one year after the date the financial statements are available to be issued.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trusts' internal control. Accordingly, no such opinion is expressed.

## ***Report of Independent Auditors***

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trusts' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

*PricewaterhouseCoopers LLP*
